

AO.

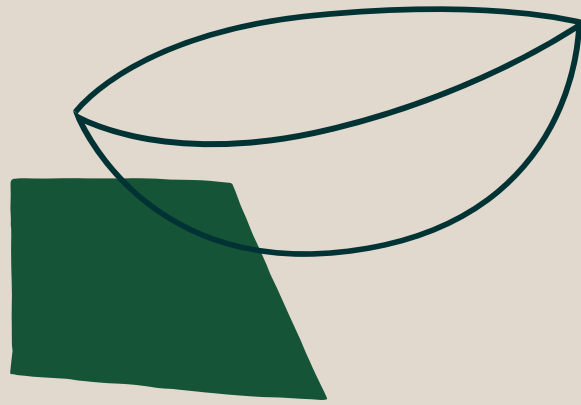

Title:

**Food Platform
for Restaurant**

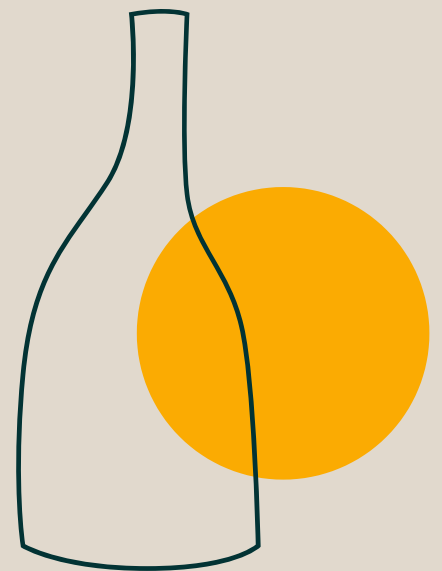

AO.

Project explanation:

The idea of this PIA is to create a program focus on the delivery system of a restaurant especially to register when a delivery man comes out to pick up the food, all of this to have a record of what it's going on the restaurant and to have the knowledge of this involve.

Project Dynamics

- Step 1:
To register at what time he enter to the restaurant
- Step 2:
What order he has to pick up in the restaurant

- Step 3:
To know at what time he has to arrive to the costumer address
- Step 4:
To register at what time he left out the restaurant
